SUMMARY

Results-oriented Full-stack Web Developer with expertise primarily in Angular, Spring Boot and PostgreSQL. Proven ability to design, develop, and deploy scalable and maintainable web applications.

EXPERIENCE

Full-stack Web Developer • ENTE Ltd. [July 2022 - now](#)

- Developed and shipped a cross-platform mobile application for bus and train drivers using Ionic and Angular. The app tracks the driver's location and displays the route on a map in real-time.
- Collaborated with other developers to develop and upgrade a highly-scalable web application for clients in the public transport sector to manage data. Built with Angular and Spring Boot.

EDUCATION

Silesian University of Technology • [2019 - 2023](#)

Bachelor of Science at the Faculty of Automatic Control, Electronics and Computer Science

PROJECTS

RunMetricsPro • [Next.js](#), [React](#), [PostgreSQL](#)

Web application for runners to track their running metrics and progress. Built with the latest Next.js 14 with React Server Components, App Router and Server Actions.

Price Watch • [Angular](#), [NestJS](#), [MySQL](#)

Web application for users to track prices and new products from online stores. Uses a cron scheduler to send weekly emails with Excel spreadsheets.

Meeting App • [Kotlin](#), [Ktor](#), [MongoDB](#)

Android mobile app that uses a meeting scheduling algorithm to schedule meetings for users. Built solo as part of a 6-month thesis project at the university.
